

Key Information Document

FOREX

Purpose

This document provides you with key information about this investment product. It is not marketing material and it does not constitute an investment advice. The Key Information Document is required by the law to help you understand the nature, risks, costs, potential gain and losses of this product and to help you compare it with other products.

Product

Product name: Contract for Difference (“CFDs”) on a Currency Pair (“FOREX”)

Distributor: Offered by BCM Begin Capital Markets CY Ltd. (previously Ox Capital Markets Ltd.) (the “Company”) a company registered in Cyprus with registration number HE338839 and authorised by Cyprus Securities and Exchange Commission (“CySEC”), with License Number 274/15.

Alert

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

FOREX, also known as foreign exchange, FX or currency trading, a contract for difference (“CFD”) on a currency pair. Forex is a decentralized global market where all the world’s currencies trade. The FOREX market is the largest, most liquid market in the world with an average volume exceeding \$5 trillion per year.

Objectives

The objective of trading FOREX is to speculate on price movements (generally over the short term) in an underlying asset by obtaining an indirect exposure to the underlying asset. Your return depends on movements in the price of the underlying asset and the size of your stake. The first currency listed in an FX pair is called the base currency and the second currency is called the quote currency (each currency pair is listed as a three-letter code). The price of an FX pair is how much one unit of the base currency is worth in the quote currency. If the base currency rises against the quote currency, then a single unit of the base currency will be worth more units of the quote currency and the FX pair's price will increase. If it drops, the pair's price will decrease.

Example

If an investor has opened a buy position (e.g. EUR/USD) and the price of the underlying asset rises, the value of the CFD will increase - at the end of the contract the Company will pay the difference between the closing value of the contract and the opening value of the contract. Conversely, if an investor opened a sell position and the price of the underlying asset rises, the value of the CFD will be increased - at the end of the contract the investor will pay the Company the difference between the closing value of the contract and the opening value of the contract.

Investor	CFD	Margin (%)	Direction	Market Direction	Profit/Loss
A	1	1 %	BUY	UP	Profit
B	1	1 %	SELL	UP	Loss
C	1	1 %	BUY	DOWN	Loss

When free margin drops due to price movement in the opposite direction of the trades, one must either fund the account in-order to keep margin level above stop out (automatic system close of open order) level which is 30% free margin, or close position(s) to avoid being stopped out, i.e., automatic close of open positions. Margin Call notification is communicated through a durable medium when free margin percentage is at 100%.

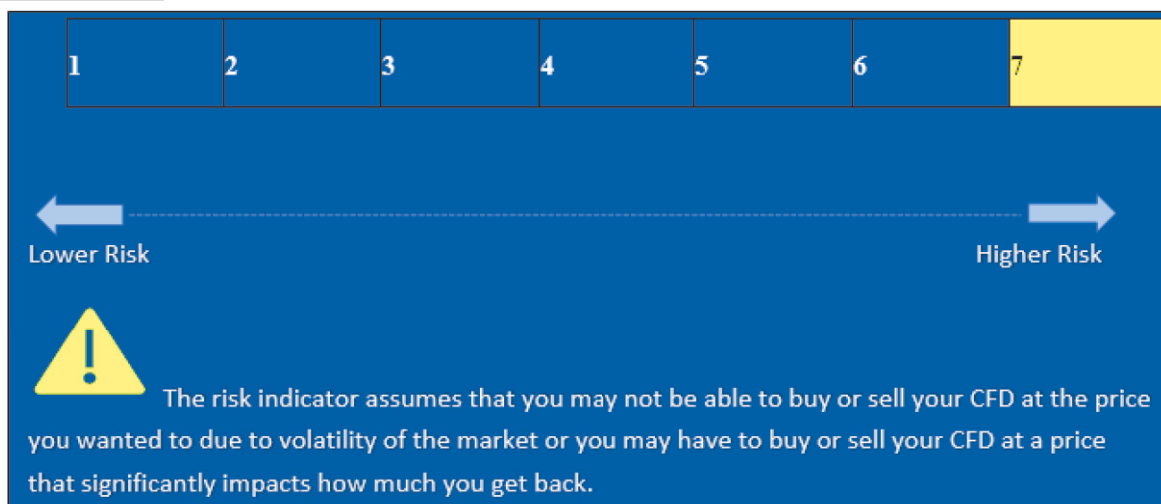

In the case of Futures Contract CFD's, the investor has the option to either close position on the pre-determined expiry date which is available on the website and communicated via durable medium or can allow for the symbol to 'Rollover' to the new contract. Depending on the direction of the trade BUY/SELL and the close price of the current contract to the open price of the new contract the trading account will either receive a credit or debit to compensate the difference and the system is automated.

*With CFD's there is no delivery of the underlying asset in regard to commodities. **The Company also retains the ability to unilaterally terminate any CFD contract where it deems that the terms of the contract have been breached.**

Intended Retail Investor

CFDs are available for investors who have knowledge for the financial markets, and they are expected to have trading experience with leveraged products in the past. It is anticipated that the investors will have an understanding on how the prices of CFDs are derived, the key concepts of margin and how leverage works. Moreover, they must understand that trading leveraged products might cause a loss of their entire invested capital and they must have the ability to bear losses.

Risk Indicator

The Risk indicator can show you the risk involved in these products compared to other products. It shows how possible it is that the product movement can lead to financial loss for the investor.

The Risk indicator has been set to the Highest level. The rate indicates the potential losses from the product future performance. CFDs are leveraged and risky products that can cause losses. Losses cannot exceed the amount invested (negative balance), however you may lose your entire invested capital. There is no capital protection against market risk, credit risk and/or liquidity risk.

Currency Risk

It is possible to buy or sell CFDs in a different currency from the currency of your account. The final pay-out that you might receive depends on the exchange rate between the two currencies.

Performance Scenarios

The below scenarios were demonstrated to provide you how an investment can perform. You can compare them with other products scenarios, in order to identify, which product is more suitable for you. The scenarios presented are an approximation of future performance, based on evidence from the past performance on how the value of this investment differs and are not an exact indicator. The outcome will be based on the market performance and how long you hold the CFD. The stress scenario indicates the possible outcome in extreme market circumstances.

Scenario

Forex: EUR/USD	
Opening Price: P	1,1975
Trade Size (per CFD): TS	5
Margin (%): M	1 %
Contract Size: K	100,000
Margin Requirement (€): $MR = P \times TS \times M \times K$	5987,5
Notional Value of the Trade (€): $TN=MR/M$	598700

What happens if the Company is unable to pay out?

The Company segregates all its clients' funds from its own, in different bank accounts, in accordance with the Law 87(I)2017 and the related Directive of the Cyprus Securities and Exchange Commission for the Safeguarding of financial instruments and funds belonging to clients. Moreover, the Company participates in the Investor Compensation Fund (ICF). The objective of the ICF is to secure claims of the covered Clients against members of the ICF, through the payment of compensation in cases where the member concerned is unable to pay out. The total payable compensation to each covered Client of the Company may not exceed the amount of twenty thousand Euros (20,000 €). For further information, please refer to Cyprus and Securities and Exchange Commission website www.cysec.gov.cy.

What are the Costs?

One-off Entry or exit Costs	Spread	The Difference between the Sell Price and Buy Price.
	Minimum Commission	The minimum fee charged for the service carrying out the transaction (it refers to stocks ONLY).
On-going Costs	Swaps	If you hold a buy or sell position open after the market close, you will be subject to Swap Fee.

How long should I hold it, and can I take money out early?

CFDs have no recommended holding period. Provided that the Company is open for trading you can enter and exit positions if the markets are available, please check all the financial instruments trading hours to our brand name websites: www.profitlevel.com and/or www.capitalpanda.com.

How can I complain?

You may submit your complaint in writing and address it to the Compliance Officer, who is authorized to handle and investigate complaints. You are encouraged to use the Complaint Form (which can be found in the "Complaints Handling Procedure") and submit it in any of the following ways:

- By submitting electronically at the following email: complaints@begincapitalmarkets.com
- By sending by post or delivering in person at the address: 39C, Zinonos, 3040, Limassol, Cyprus
- By Facsimile at +357 2503 0026.

If you feel that your complaint has not been resolved satisfactory, you may file a complaint through Cyprus and Exchange Commission website. Please read our "Complaints Handling Procedure".
